Section 1: Product and Company Identification

Product Name: Silver Powder, 7-15µm
Synonym: None

Company Name
Ted Pella, Inc., P.O. Box 492477, Redding, CA 96049-2477
Domestic Phone (800) 237-3526 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
International Phone (01) (530) 243-2200 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
Chemtrec Emergency Number 1-800-424-9300 24 hrs a day.

Section 3: Hazard Identification

Emergency overview
Appearance: Silver powder.
Immediate effects: Irritant. Depending upon entry contact refer to Potential health effects.

Potential health effects
Primary Routes of entry: Inhalation, skin, eyes, ingestion.
Signs and Symptoms of Overexposure: Exposure to silver may produce argyria, a permanent blue-gray discoloration of the skin, eyes, mucous membranes, and the respiratory tract.
Eyes: Exposure of the eyes to this material in powder form may produce localized argyria and/or irritation
Skin: Skin contact with this material in solid forms is not known to be hazardous. In finely divided form, skin contact may produce localized irritation, skin discoloration, and/or contact dermatitis.
Ingestion: Ingestion of this material in finely divided form may produce vomiting, abdominal pain, and/or collapse.
Inhalation: Acute inhalation exposure to silver may produce argyria, a permanent blue-gray discoloration of the skin, eyes, mucous membranes, and the respiratory tract.
Chronic Exposure: Exposure to silver may produce argyria, a permanent blue-gray discoloration of the skin, eyes, mucous membranes, and the respiratory tract. Chronic...
ingestion of silver can similarly lead to an accumulation of silver in the eye (argyrosis) and in other organs.

Chemical Listed As Carcinogen Or Potential Carcinogen: No
See Toxicological Information (Section 11)

**Potential environmental effects**
See Ecological Information (Section 12)

---

**Section 4: First Aid Measures**

*If accidental overexposure is suspected*

- **Eye(s) Contact:** Flush affected areas with water for at least 15 minutes. Seek medical assistance if necessary.
- **Skin Contact:** Following repeated or prolonged contact, remove contaminated clothing. Wash affected area with large quantities of water at least 5 minutes. Seek medical assistance if necessary.
- **Inhalation:** If signs and symptoms of toxicity are observed. Remove subject from contaminated area. Administer oxygen and seek medical attention. Keep the subject warm and at rest. Perform artificial respiration if breathing has stopped.
- **Ingestion:** If subject is conscious, induce vomiting. If unconscious or convulsive seek immediate medical assistance.

**Note to physician**

Treatment: NIF

Medical Conditions generally Aggravated by Exposure: Pre-existing pulmonary disease (e.g., dermatitis) may be aggravated by sustained dermal exposure to this material in finely divided form.

---

**Section 5: Fire Fighting Measures**

- **Flash Point:** NA
- **Flammable Limits:** NA
- **Auto-ignition point:** NA
- **Fire Extinguishing Media:** Use dry powder. Do not use water
- **Special Fire Fighting Procedures:** Use self-contained breathing apparatus with full face piece operated in pressure demand or other positive pressure mode.
- **Unusual Fire and Explosion Hazards:** In finely divided form, this material may react vigorously or ignite when exposed to incompatible materials. Explosions or fires involving this material may release potentially toxic emissions.
- **Hazardous combustion products:** Unknown
- **DOT Class:** 9

---

**Section 6: Accidental Release Measures**

Steps to be Taken in Case Material is Released or Spilled: Avoid dust formation. Clean up spilled material so as to minimize dispersion of dust. Wet sweeping or vacuuming using HEPA filtration is recommended methods. Can be collected and reclaimed.

**Waste Disposal Methods:** Dispose of waste according to Federal, State and Local Regulations.
Section 7: Handling and Storage
Precautions to be Taken in Handling and Storage: Keep container dry. Keep container tightly closed. Do not store in proximity to incompatible materials.
Storage temperature: Room temperature.
Storage Pressure: NA

Section 8: Exposure Controls / Personal Protection
Engineering Controls
Ventilation required: Use mechanical local exhaust ventilation adequate to maintain airborne concentrations within their respective OSHA PEL.

Personal Protection Equipment
Respiratory protection: Suitable dust mask.
Protective gloves: Wear gloves when handling
Skin protection: Lab coat or other clothing as required.
Eye protection: Splash goggles, or face shield
Additional clothing and/or equipment: NIF

Exposure Guidelines
See Composition/Information on Ingredients (Section2)

Section 9 Physical and Chemical Properties
Appearance and Physical State: Grey white metal powder.
Odor (threshold): NA
Specific Gravity (H₂O=1): 10.5
Vapor Pressure (mm Hg): NA
Vapor Density (air=1): NA
Percent Volatile by volume: NA
Evaporation Rate (butyl acetate=1): NA
Boiling Point: 4014 °F (2212 °C)
Freezing point / melting point: 1764 °F (962 °C)
pH: NA
Solubility in Water: Insoluble
Molecular Weight: 107.87

Section 10: Stability and Reactivity
Stability: Stable
Conditions to Avoid: Avoid incompatible materials.
Materials to Avoid (Incompatibility): Acetylene, ammonia, nitric acid, ethyleneimine, chlorine trifluoride, sulfuric acid, inorganic and organic peroxides, peroxyformic acid, bromoazide, oxalic acid, 1-bromo-2-propyne, tartaric acid, permonosulfuric acid.
Hazardous Decomposition Products: Heating to elevated temperatures may volatilize silver as fume.
Hazardous Polymerization: Does not occur.

Section 11: Toxicological Information
Results of component toxicity test performed: Acute oral toxicity, Mouse (LD50): 100 mg/kg
Human experience: Very hazardous in case of ingestion and inhalation.
This product does not contain any compounds listed by NTP or IARC or regulated by OSHA as a carcinogen.

Section 12: Ecological Information
Ecological Information: NA
Chemical Fate Information: NA

Section 13 Disposal Considerations
Federal, State and local laws governing disposal of materials can differ. Ensure proper disposal compliance with proper authorities before disposal.

Section 14: Transportation Information
US DOT Information: Proper shipping name: Environmentally hazardous substances, solid, n.o.s. (Silver powder 7-15 µm)
Hazard Class: 9
Packaging group: III
UN Number: UN3077
IATA: Proper shipping name: Environmentally hazardous substance, solid, n.o.s. (Silver powder 7-15 µm)
Hazard Class: 9
Packaging group: III
UN Number: UN3077
Marine Pollutant: No
Canadian TDG: NIF

Section 15: Regulatory Information
United States Federal Regulations
SARA: Section 302: None
SARA Title III: Section 313: Silver (CAS-No. 7440-22-4). Section 311/312: None
RCRA: Waste code: D011
TSCA: Listed
CERCLA: Reportable Quantity (RQ): 1000 lbs (454 kg)

State Regulations
California Proposition 65: None

International Regulations
Canada WHMIS: NIF
Europe EINECS Numbers: 231-131-3

Section 16: Other Information
Label Information: Acute inhalation and eye exposure risk.
European Risk and Safety Phrases: ND
European symbols needed: ND
Canadian WHMIS Symbols: ND
HMIS® Hazard Rating: Health: 2; Fire: 1; Reactivity: 0
(0=least, 1=Slight, 2=Moderate, 3=High, 4=Extreme)

Abbreviations used in this document
NE= Not established
NA= Not applicable
NIF= No Information Found
ND= No Data
