1. Identification

Product identifier: Tissue-Tek® Neutra-Wipes®

Other means of identification:

Product code: 4278 and 4279

Recommended use: Aldehyde spill containment

Recommended restrictions: None known.

Manufacturer/Importer/Supplier/Distributor information:

Manufacturer/Supplier: Sakura Finetek USA Inc.
Address: 1750 West 214th St.
Torrance, CA 90501
Telephone: 1-310-972-7800
Emergency phone number: CHEMTREC: 1-800-424-9300
Email: SDSsupport@sakuraus.com

2. Hazard(s) identification

Physical hazards: Not classified.

Health hazards: Not classified.

OSHA defined hazards: Not classified.

Label elements:

Hazard symbol: None.

Signal word: None.

Hazard statement: The mixture does not meet the criteria for classification.

Precautionary statement:

Prevention: Observe good industrial hygiene practices.
Response: Wash hands after handling.
Storage: Store away from incompatible materials.
Disposal: Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC): None known.

Supplemental information: None.

3. Composition/information on ingredients

Mixtures:

The manufacturer lists no ingredients as hazardous according to OSHA 29 CFR 1910.1200.

4. First-aid measures

Inhalation: Not relevant, due to the form of the product.
Skin contact: Wash off with soap and water. No adverse effects due to skin contact are expected.
Eye contact: Not likely, due to the form of the product.
Ingestion: First aid normally not needed for small amounts ingested by transferring from hand to mouth.
Most important symptoms/effects, acute and delayed: Acute exposures not expected to produce symptomatic response. May cause temporary irritation on skin or eye contact.
Indication of immediate medical attention and special treatment needed: Treat symptomatically.
General information: This product is not expected to produce adverse effects under normal conditions of use and appropriate personal hygiene.
5. Fire-fighting measures

Unsuitable extinguishing media: None known.
Specific hazards arising from the chemical: During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters: Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions: Use methods for the surrounding fire.
Specific methods: Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards: Material will burn in a fire.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up: Pick up mechanically. For waste disposal, see section 13 of the SDS.
Environmental precautions: Dispose of in accordance with local regulations.

7. Handling and storage

Precautions for safe handling: Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities: Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls/personal protection

Occupational exposure limits: No exposure limits noted for ingredient(s).
Biological limit values: No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls: General ventilation normally adequate.
Individual protection measures, such as personal protective equipment:
   Eye/face protection: Not normally needed.
   Skin protection: Not normally needed.
   Hand protection: Wearing gloves is recommended.
   Other: Not normally needed.
   Respiratory protection: Not normally needed.
   Thermal hazards: Not anticipated.
General hygiene considerations: Handle in accordance with good industrial hygiene and safety practice.

9. Physical and chemical properties

Appearance:
   Physical state: Solid.
   Form: Cloth wipes.
   Color: White.
   Odor: Not available.
   Odor threshold: Not available.
   pH: Not available.
   Melting point/freezing point: Not available.
   Initial boiling point and boiling range: Not available.
   Flash point: Not available.
   Evaporation rate: Not available.

10. Stability and reactivity

Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability
Material is stable under normal conditions.

Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.

Conditions to avoid
Contact with incompatible materials.

Incompatible materials
Strong oxidizing agents.

Hazardous decomposition products
No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation
Not relevant, due to the form of the product.

Skin contact
Prolonged and/or repeated skin contact may result in mild irritation or redness.

Eye contact
Direct contact with eyes may cause temporary irritation.

Ingestion
Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics
Acute exposures not expected to produce symptomatic response.

Information on toxicological effects

Acute toxicity
Not expected to be acutely toxic.

Skin corrosion/irritation
Prolonged skin contact may cause temporary irritation.

Serious eye damage/eye irritation
Direct contact with eyes may cause temporary irritation.

Respiratory or skin sensitization

Respiratory sensitization
Not a respiratory sensitizer.

Skin sensitization
This product is not expected to cause skin sensitization.

Germ cell mutagenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

Carcinogenicity
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
This product is not expected to cause reproductive or developmental effects.

Not classified.

Not relevant, due to the form of the product.

Aquatic Bioassay was conducted using guidelines prescribed in "Static Acute Bioassay Procedure for Hazardous Waste for Samples," result status = pass, 96 hour LC50 > 750 mg/l.

No data is available on the degradability of this product.

No data available.

No data available.

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Collect and reclaim or dispose in sealed containers at licensed waste disposal site.

Dispose in accordance with all applicable regulations.

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
