Safety Data Sheet
Product No. 21-10, 21-100, 21-2, 21-50, 8071, 91110, 91520, 91521, 9550, 9552, 9562,
Gold Products
Issue Date (04-21-15)
Review Date (08-24-17)

Section 1: Product and Company Identification
Product Name: Gold Products
Synonym: Gold metal; burnish gold; colloidal gold; gold flake; gold leaf; gold powder; magnesium gold purple; shell gold.
Company Name
Ted Pella, Inc., P.O. Box 492477, Redding, CA 96049-2477
   Inside USA and Canada 1-800-237-3526 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
   Outside USA and Canada 1-530-243-2200 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
CHEMTREC USA and Canada Emergency Contact Number 1-800-424-9300 24 hours a day
CHEMTREC Outside USA and Canada Emergency Contact Number +1-703-741-5970 24 hours a day

Section 2: Hazard Identification
2.1 Classification of substance or mixture
The substance is not classified as hazardous to health or the environment according to CLP regulation.
Information concerning particular hazards for human and environment: Not Applicable; No information known.

GHS Pictograms: NA
GHS Categories: NA

2.2 Label elements
Hazard Pictograms: NA
Signal Word: NA
Hazard Statements: NA
Precautionary Statements: NA

2.3 Other hazards
Hazards not otherwise classified: No information known.

Health Effects:
HMIS® Hazard Rating: Health: 0; Fire: 0; Reactivity: 0
(0=least, 1=Slight, 2=Moderate, 3=High, 4=Extreme)

Results of PBT and vPvB assessment:
PBT: NA
vPvB: NA

Emergency overview
Appearance: Yellow, solid, pieces, powder, wire or flat disc.
Immediate effects: Poison by intravenous route. Questionable carcinogen.
Potential health effects
HEALTH HAZARDS (ACUTE AND CHRONIC): Gold poisoning is rare. The few recorded cases of fatalities are the result of therapeutic overdose. Human systemic effects are similar to those of arsenic exposure and include: violent diarrhea, gastritis, colitis, dermatitis, blood dyscrasias, leukopenia, aganulocytosis and aplastic anemia. The therapeutic use of gold compounds has been associated with serious effects at the kidney, liver, and other vital organs. Generally, gold compounds are poorly absorbed when ingested. (Sax, Dangerous Properties of Industrial Materials, eighth edition)

Primary Routes of entry: None

Signs and Symptoms of Overexposure: ND

Eye(s): May cause eye irritation.

Skin: May cause skin irritation.

Inhalation: May cause irritation of the digestive tract. May be harmful if swallowed.

Inhalation: May cause respiratory tract irritation. May be harmful if inhaled.

Chronic Exposure: ND

Chemical Listed As Carcinogen or Potential Carcinogen: None

See Toxicological Information (Section 11)

**Potential environmental effects**

See Ecological Information (Section 12)

### Section 4: First Aid Measures

**If accidental overexposure is suspected**

**Eye(s) Contact:** Flush eyes with lukewarm water, lifting upper and lower eyelids, for at least 15 minutes. Seek medical attention if symptoms persist.

**Skin Contact:** Remove contaminated clothing; brush material off skin; wash affected area with mild soap and water; seek medical attention if symptoms persist.

**Inhalation:** Remove victim to fresh air; keep warm and quiet; give oxygen if breathing is difficult and seek medical attention if symptoms persist.

**Ingestion:** Give 1-2 glasses of milk or water and induce vomiting; seek medical attention if symptoms persist. Never induce vomiting or give anything by mouth to an unconscious person.

**Note to physician**

Treatment: ND

Medical Conditions generally Aggravated by Exposure: ND

---

### Section 5: Fire Fighting Measures

**Flash Point:** NA

**Flammable Limits:** NA

**Auto-ignition point:** NA

**Fire Extinguishing Media:** Use carbon dioxide, extinguishing powder, or foam. Water may be ineffective but may be used for cooling exposed containers.

**Special Fire Fighting Procedures:** Firefighters must wear full face, self-contained breathing apparatus with full protective clothing to prevent contact with skin and eyes.
Fumes from fire are hazardous. Isolate runoff to prevent environmental pollution.

Extremely inactive; not attacked by acids, air or oxygen. Superficially attacked by aqueous halogen at room temperature. React with aqua regia, with mixtures containing chlorides, bromides, or iodides if they can generate nascent halogens. Reacts with many oxidizing mixtures especially those containing halogens. Reacts with alkali cyanides, solutions of thiocyanates and double cyanides. Does not corrode in air but is tarnished by sulfur. Finely divided gold with hydrogen peroxide may explode.

**Unusual Fire and Explosion Hazards:** Finely divided gold with hydrogen peroxide may explode.

**Hazardous combustion products:** If the product is involved in a fire, metal oxide fumes can be released.

**DOT Class:** None

---

**Section 6: Accidental Release Measures**

Steps to be Taken in Case Material is Released or Spilled:

**Personal precautions, protective equipment, and emergency procedures:** Wear appropriate respiratory and protective equipment specified in section VIII-control measures.

**Clean-up methods:** Isolate spill area and provide ventilation. Vacuum up spill using a high efficiency particulate absolute (HEPA) air filter and place in a closed container for proper disposal or recycle. Take care not to raise dust.

**Environmental precautions:** Do not allow material to be released to the environment without government permits. Do not allow material to reach sewage system or any water course. Do not allow to penetrate ground/soil.

**Waste Disposal Methods:** Dispose of waste according to federal, state and local regulations.

---

**Section 7: Handling and Storage**

Precautions to be Taken in Handling and Storage: Store in a cool, dry place and keep container tightly sealed.

**Storage temperature:** Room temperature.

**Storage Pressure:** NA

---

**Section 8: Exposure Controls / Personal Protection**

**Engineering Controls**

Implement engineering and work practice controls to reduce and maintain concentration of exposure at low levels.

**Ventilation required:** Good general ventilation should be sufficient to control airborne levels.

**Personal Protection Equipment**

**General:** Use good housekeeping and sanitation practices. Do not use tobacco or food in work area. Wash thoroughly before eating or smoking. Do not blow dust off clothing or skin with compressed air.

**Respiratory protection:** NIOSH approved respirator for dust conditions

**Protective gloves:** Rubber gloves

**Skin protection:** Protective work clothing

**Eye protection:** Safety glasses

**Additional clothing and/or equipment:** None

**Exposure Guidelines**

See Composition/Information on Ingredients (Section 3)

---

**Section 9 Physical and Chemical Properties**

**Appearance and Physical State:** Gold solid in various forms

**Odor (threshold):** None (NA)

**Specific Gravity (H₂O=1):** 19.32 g/cm³

**Vapor Pressure (mm Hg):** NA
Vapor Density (air=1): NA
Percent Volatile by volume: NA

Evaporation Rate (butyl acetate=1): NA
Boiling Point: 2808 ºC
Melting point: 1064 ºC
pH: NA
Solubility in Water: Insoluble
Molecular Weight: ND

Section 10: Stability and Reactivity
Stability: Stable.
Conditions to Avoid: Incompatible materials.
Materials to Avoid (Incompatibility): Attacked by aqueous halogens at room temperature. Incompatible with sulfuric acid, ammonia, aqua regia; with mixtures containing chlorides, bromides, or iodides if they can generate nascent halogens; with many oxidizing mixtures especially those containing halogens; alkali cyanides, solutions of thiocyanates, and double cyanides; acetylene, CS₂, ethanol + nitric acid, bromoazide, ethyleneimine, oxalic acid, permonosulfuric acid, tartaric acid, NH₄NO₃, inorganic and organic peroxides, metal chlorates, bromates, and iodates; SE, TE, S, MnCl₂, azides, hydroxylamine, and CrO₃, KNO₃.
Hazardous Decomposition Products: Metal oxide fumes, nascent halogens.
Hazardous Polymerization: Will not occur.

Section 11: Toxicological Information
Results of component toxicity test performed:

- Implant-Rat: TDLo 200 mg/Kg Equivocal tumorigenic agent.
- Implant-Mouse: TDLo 21 g/Kg Equivocal tumorigenic agent.
- Implant-Rat: TD 4730 mg/Kg Equivocal tumorigenic agent.
- Intravenous-Rat: TDLo 58 mg/Kg Equivocal tumorigenic agent.
- Ipr-Rat: TDLo: 250 mg/Kg
- Scu-Rat: TDLo: 250 mg/Kg

Human experience: Powders may cause localized skin irritation or irritate the respiratory tract by mechanical action.
This product does not contain any compounds listed by NTP or IARC or regulated by OSHA as a carcinogen.

Section 12: Ecological Information
Ecological Information: ND
Chemical Fate Information: ND

Section 13 Disposal Considerations
RCRA 40 CFR 261 Classification: ND.
Recycle.
Federal, State and local laws governing disposal of materials can differ. Ensure proper disposal compliance with proper authorities before disposal.

Section 14: Transportation Information
US DOT Information: Proper shipping name: Not regulated
IATA: Proper shipping name: Not regulated
IMO: Proper shipping name: Not regulated
Marine Pollutant: No
Canadian TDG: Not regulated
Section 15: Regulatory Information
United States Federal Regulations
SARA: No components subject to reporting.
SARA Title III: No components subject to reporting.
RCRA: ND
TSCA: Listed 8(b) gold powder
CERCLA: Not listed
State Regulations
California Proposition 65: Not listed.
International Regulations
Canada WHMIS: Not regulated
Europe EINECS Numbers: ND

Section 16: Other Information
Label Information: ND
European Risk and Safety Phrases: ND
European symbols needed: ND
Canadian WHMIS Symbols: ND
