Material Safety Data Sheet

Product Number: 21552-10, 21591-10 and 21593-10
Issue Date: (06-07-2010)
Review Date: (09-13-2017)

Section 1: Product and Company Identification
Product Name: Hydrophobic Silicon Nitride Support Film
Formula: Si/SiN with 2.5nm atomic layer-deposited alumina (Al2O3) and 1nm tridecafluoro- 1,1,2,2-tetrahydro-octyl-methyl-bis(dimethylamino)silane (Supplier: Gelest, Inc., Morrisville, PA 19067, phone 1-215 547 1015)
Company Name:
Ted Pella, Inc., P.O. Box 492477, Redding, CA 96049-2477
Inside USA and Canada 1-800-237-3526 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
Outside USA and Canada 1-530-243-2200 (Mon-Thu. 6:00AM to 4:30PM PST; Fri 6:00AM to 4:00PM PST)
CHEMTREC USA and Canada Emergency Contact Number 1-800-424-9300 24 hours a day
CHEMTREC Outside USA and Canada Emergency Contact Number +1-703-741-5970 24 hours a day

Section 2: Composition Information on Ingredients

Physical Characteristics: Appearance: Solid 3.0mm disk with a blue color from the silicon dioxide/silicon nitride thin film.
Section 3: Hazard Identification

Emergency Overview:
This product is manufactured under cleanroom conditions and is effectively in solid form as received. The silicon nitride membrane is 50 to 200 nanometers in scale and can be fractured if handled without due care, potentially releasing a small number of microscopic particles in the vicinity of the user that may act as an irritant. Whilst not the intended application of this product, if it is ground to a powder, the dust created in the process can be irritating.

Routes of Entry: Eyes, skin, ingestion and inhalation

Potential Health Effects:
Eyes: May cause eye irritation if placed in direct contact
Skin: May cause skin irritation if placed in direct contact
Ingestion: May be harmful, effects not known
Inhalation: Unless ground to a powder or heated to a high temperature, exposure to this product by inhalation is not known to cause any deleterious health effects.

Accidental fracture of the membrane by the user could generate microscopic particles that may cause irritation to the upper respiratory tract.

The product is exposed to temperatures > 1050°C during manufacture and therefore it is unlikely that the user will be exposed to volatile compounds unless heating the product to temperatures approaching the melting point or boiling point of the materials.

Acute Health Hazards: No data available

Chronic Health Hazards:
Carcinogenic effects: No data available
Mutagenic effects: No data available
Teratogenic effects: No data available
Developmental toxicity: No data available

Medical Conditions Generally Aggravated by Exposure: Repeated or prolonged exposure is not known to aggravate any medical condition.

Section 4: First Aid Measures

Eye Contact: Check for and remove any contact lenses. Immediately flush eyes with plenty of water for at least 15 minutes. Seek medical attention if irritation continues.

Skin Contact: Wash with soap and water. Cover the irritated skin with an emollient. Seek medical attention if irritation develops.

Serious Skin Contact: No data available

Inhalation: If inhaled, remove victim to fresh air. If breathing is difficult, give oxygen. If not breathing, administer artificial respiration. Seek medical attention.

Serious Inhalation: Evacuate victim to a safe area with fresh air as soon as possible. Loosen tight clothing such as collar, tie, belt or waistband. If breathing is difficult, administer oxygen. If victim is not breathing, perform mouth-to-mouth resuscitation. Seek medical attention.

Ingestion: DO NOT induce vomiting unless directed to do so by medical personnel. Loosen tight clothing such as collar, tie, belt or waistband. Seek medical attention.

Serious Ingestion: No data available
Section 5: Fire-Fighting Measures

Flash Point: Non-flammable
Flammable Limits in Air: Lower: N/A, Upper: N/A
Auto-Ignition Temperature: N/A
Extinguishing Media: Use carbon dioxide, dry chemical extinguishing agents, dry sand or dry ground dolomite.
Special Fire Fighting Procedures: No special fire-fighting procedures needed. Use normal procedures that include wearing NIOSH/MSHA-approved self-contained breathing apparatus, flame and chemical resistant clothing; hats, boots and gloves. If without risk, remove material from fire area.
Unusual Fire & Explosion Hazard: None known

Section 6: Accidental Release Measures

Overview: The use of personal protective equipment as outlined in Section 8 is recommended.
Spills/Leaks: Consult state, local or federal EPA regulations for proper disposal.

Section 7: Handling and Storage

Handling: This product need to be handled with the appropriate-sized tweezers to avoid direct contact with skin.
Storage: Store in a cool, dry, well-ventilated area away from incompatible substances.

Section 8: Exposure Controls and Personal Protection

Engineering Controls: None required if product is used as intended
Ventilation: Laboratory fume hood
Respiratory Protection: Use a NIOSH/MSHA-approved dust respirator.
Eye Protection: Wear appropriate ANSI-approved safety goggles.
Skin Protection: Avoid direct contact with skin by the use of tweezers.
Other Protective Clothing or Equipment: Use normal laboratory wear.

Section 9: Physical and Chemical Properties

Silicon
Physical state: Solid
Appearance: Silver-gray
Odor: None
pH: N/A
Vapor pressure: 1 mmHg at 1724°C
**Silicon Dioxide**

Physical state: Solid  
Appearance: Transparent  
Odor: None  

pH: N/A  
Vapor pressure: N/A  
Vapor density: N/A  
Evaporation rate: N/A  
Viscosity: N/A  
Boiling point: Not available  
Melting point: 1610°C  
Decomposition temperature: Not available  
Solubility: Insoluble in water  
Density: 2.2 g/cm$^3$  
Molecular formula: SiO$_2$  
Molecular weight: 59.966758

**Aluminum Oxide**

Physical state: Solid  
Appearance: Transparent  
Odor: None  

pH: N/A  
Vapor pressure: N/A  
Vapor density: N/A  
Evaporation rate: N/A  
Viscosity: N/A  
Boiling point: 2977°C  
Melting point: 2030°C  
Decomposition temperature: Not available  
Solubility: Insoluble in water  
Density: 4.0 g/cm$^3$  
Molecular formula: Al$_2$O$_3$  
Molecular weight: 101.961

**Tridecafluoro-1,1,2,2-Tetrahydro-Octyl-Methyl-bis(Dimethylamino)Silane**

Physical state: Solid  
Appearance: Transparent  
Odor: None  

pH: N/A  
Vapor pressure: N/A  
Vapor density: N/A
Evaporation rate: N/A
Viscosity: N/A
Boiling point: Not available
Melting point: Not available
Decomposition temperature: Not available
Solubility: Insoluble in water
Density: 1.45 g/cm$^3$

Molecular formula: (C$_{8}$F$_{13}$H$_{4}$(CH$_{3}$)Si(N(CH$_{3}$)$_{2}$)$_{2}$)$_{2}$
Molecular weight: 478.368

Section 10: Stability and Reactivity

Chemical Stability: Stable under normal temperatures and pressures
Conditions to Avoid: Incompatible materials, fracture of membrane, moisture, and excessive temperatures leading to sublimation and melting
Incompatibilities with Other Materials: Strong oxidizing agents
Hazardous Decomposition Products: Irritating, toxic fumes and gases based on oxides of silicon
Hazardous Polymerization: No information available

Section 11: Toxicological Information

When used as intended this product is generally regarded as safe. A typical TLV (TWA) is 10mg/m$^3$
CAS# 7440-21-3: Oral–Rat: LD$_{50}$ = 3160 mg/kg. Draize test–rabbit, eye: 3mg: mild
Carcinogenicity: IARC Undefined
Epidemiology: IARC Undefined
Teratogenicity: No information available
Reproductive Effects: No information available
Neurotoxicity: No information available
Mutagenicity: No information available

Section 12: Ecological Information

Environmental: When used as intended as a TEM specimen support film, the disposal of this product is to be guided by additional substances or materials with which the product has been in contact. If the product does not come into contact with additional substances or materials, it can be disposed of as an inert material. No adverse environmental impacts are known. The product is non-volatile, insoluble in water and will not biodegrade.

Section 13: Disposal Considerations

The product should be disposed of in a manner that is consistent with local, state and federal environmental control regulations.

Section 14: Transport Information

DOT Shipping Name: Not regulated
DOT Hazard Class: None
Product RQ: None
Technical shipping name: Metal alloy
UN or NA number: None
Section 15: Regulatory Information

United States of America
TSCA: CAS# 7440-21-3 and CAS# 7631-86-9/112926-00-8 are listed on the TSCA inventory. These materials do not contain any Class 2 ozone depletors.

Clean Water Act: None of the chemicals in this product is listed as Hazardous Substances under the CWA. None of the chemicals in this product is listed as Priority Pollutants under the CWA. None of the chemicals in this product is listed as Toxic Pollutants under the CWA.

OSHA: None of the chemicals in this product is considered highly hazardous by OSHA.

HMIS (U.S.A.):
- Health Hazard: 1
- Fire Hazard: 0
- Reactivity: 0
- Personal Protection: E

National Fire Protection Association (U.S.A.):
- Health Hazard: 1
- Fire Hazard: 0
- Reactivity: 0

Specific Hazard: No data available

Protective Equipment: Gloves, tweezers, lab coat, dust respirator and safety glasses

Federal and State Regulations:
California Director’s list of hazardous substances: silicon, silicon dioxide (amorphous)
Florida RTK: silicon
Minnesota RTK: silicon, silicon dioxide (amorphous)
Massachusetts RTK: silicon dioxide (amorphous)
New Jersey: silicon, silicon dioxide (amorphous)
Pennsylvania RTK: silicon, silicon dioxide (amorphous)

European and International Regulations:
DSCL (EEC): This product is not classified according to EU regulations. Not applicable.
EINECS: This product is on the European Inventory of Existing Commercial Chemical Substances.

European Labeling in Accordance with EC Directives:
- Hazard Symbols: Not available
- Phrases: Not available
- Safety Phrases: WGK (Water Danger/Protection)
- CAS# 7440-21-3: No information available

Canadian Regulations:
WHMIS (Canada): Not controlled under WHMIS (Canada)
CAS#s 7440-21-3, 7631-86-9, 112926-00-8 and 12033-89-5 are listed on Canada's DSL List.
CAS#s 7440-21-3, and 12033-89-5 are not listed on Canada's Ingredient Disclosure List.
CAS#s 7631-86-9 and 112926-00-8 are listed on Canada's Ingredient Disclosure List.

Exposure Limits in Other Countries:
CAS# 7440-21-3:
OEL-Australia: TWA 10 mg/m$^3$
OEL-Belgium: TWA 10 mg/m$^3$
OEL-Denmark: TWA 10 mg/m$^3$
OEL-France: TWA 10 mg/m$^3$
OEL-Korea: TWA 10 mg/m$^3$
OEL-The Netherlands: TWA 10 mg/m$^3$
OEL-Switzerland: TWA 4 mg/m$^3$
OEL-United Kingdom: TWA 10 mg/m$^3$ (total dust)
OEL-United Kingdom: TWA 5 mg/m$^3$ (resp. dust)
OEL in Bulgaria, Columbia, Jordan, Korea: Check with ACGIH TLV
OEL in New Zealand, Singapore, Vietnam: Check with ACGIH TLV

Section 16: Other Information

Disclaimer of Liability: This product and materials supplied by Ted Pella, Inc., are not designed, warranted or certified for applications that involve implantation in the body; direct or indirect contact with the blood pathway; contact with bone, tissue, tissue fluid, or blood; or prolonged contact with mucous membranes.

Ted Pella, Inc. makes no warranty of any kind regarding the information furnished herein. Users should independently determine the suitability and completeness of information from all sources. While this data is presented in good faith and believed to be accurate, it should be considered only as a supplement to other information gathered by the User. It is the User's responsibility to ensure the proper use and disposal of these materials as well as the safety and health of all personnel who may work with or otherwise come into contact with these materials.
