   Eye Contact: Flush eyes with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical attention if irritation occurs and persists.
   Skin: No first aid should be needed.
   Inhalation: Remove victim to fresh air. Get medical attention if symptoms persist.
   Ingestion: Not applicable.

4.2 Most Important symptoms and effects, both acute and delayed: May cause slight eye and skin irritation. Inhalation...
may cause irritation, headache, dizziness and drowsiness.

4.3 **Indication of any immediate medical attention and special treatment needed:** Immediate medical attention should not be required.

### SECTION 5: FIRE-FIGHTING MEASURES

5.1 **Extinguishing Media:**
Use foam, carbon dioxide or dry chemical. Use water spray to cool fire-exposed containers.

5.2 **Special Hazards Arising from the Substance or Mixture**

**Unusual Fire and Explosion Hazards:** Contents under pressure. Keep away from heat and open flames. Container may rupture or explode in the heat of a fire. Prolonged exposure to temperatures above 50°C may cause cans to burst.

**Hazardous Combustion Products:** Not combustible.

5.3 **Advice for Fire-Fighters:**
Wear approved, positive pressure, self-contained breathing apparatus and full protective clothing. Cool fire exposed containers with water. Protect against bursting cans.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 **Personal Precautions, Protective Equipment and Emergency Procedures:**
Wear appropriate personal protective equipment. Ventilate area.

6.2 **Environmental Precautions:**
Report spill as required by local and national regulations.

6.3 **Methods and Material for Containment and Cleaning Up:**
Place leaking can in a pail or other open container in a well ventilated area until the pressure has released. Absorb liquid with inert absorbent material. Collect and place in an appropriate waste disposal container.

6.4 **Reference to Other Sections:**
Refer to Section 8 for protective equipment and Section 13 for disposal considerations.

### SECTION 7: HANDLING AND STORAGE

7.1 **Precautions for Safe Handling:**
Avoid contact with eyes. Avoid breathing spray mists. Use only with adequate ventilation. Wash exposed skin thoroughly with soap and water after use. Keep away from heat sources. Contents under pressure. Do not puncture or incinerate container.

Please read and follow the directions on the product label; they are your best guide to using this product in the most effective way, and give the necessary safety precautions to protect your health.

7.2 **Conditions for Safe Storage, Including any Incompatibilities**
Store in a cool, well-ventilated area at temperatures below 50°C. Do not store in direct sunlight. Store away from oxidizers.

<tr>
<td></td>
<td>500 ppm TWA, 750 ppm STEL (Sweden)</td>
</tr>
</tbody>
</table>
8.2 Exposure Controls:

**Ventilation:** Use with adequate general ventilation to minimize exposure. For operations where the occupational exposure limit may be exceeded, mechanical ventilation such as local exhaust may be needed to maintain exposure levels below applicable limits.

**Respiratory Protection:** None needed under normal use conditions. For operations where the occupational exposure limit may be exceeded, a local authority approved supplied air respirator is recommended. Equipment selection depends on contaminant type and concentration, select in accordance with good industrial hygiene practice. For firefighting, use self-contained breathing apparatus.

**Skin Protection:** None needed for normal use.

**Eye Protection:** None needed for normal use.

**Other Protective Equipment:** None needed for normal use.
