

## NEW PELCO GEOSLIDES STORAGE BOXES

The first plastic slide boxes designed for the safe long term storage and transport of Petrographic slides, 46 x 27mm and 48x28mm

- Numbered index file sheet is located on the inside cover
- Produced from impact resistant ABS plastic
- Secure sliding compression latch
- Foam liner base
- Hinged lid
- Stackable

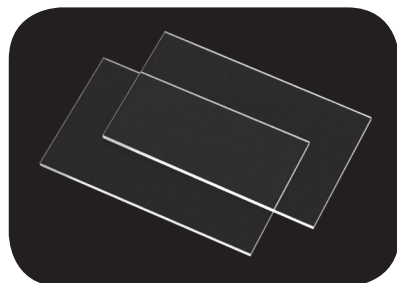

Available in 2 sizes and 2 colors:

- 25 slides, 104 L x 94 W x 32mm H (4.10 x 3.70 x 1.26")
- 100 slides, 209 L x 172 W x 32mm H (8.23 x 6.77 x 1.26")
- Available colors: Blue and Black

2308-4	PELCO® GEOSLIDES Storage Box, Blue, 25 Slides .....	each
2308-6	PELCO® GEOSLIDES Storage Box, Black, 25 Slides.....	each
2310-4	PELCO® GEOSLIDES Storage Box, Blue, 100 Slides.....	each
2310-6	PELCO® GEOSLIDES Storage Box, Black, 100 Slides.....	each

## NEW PETROGRAPHIC MICROSCOPE SLIDES

Plain glass slides made from the finest quality non-corrosive white glass. Edges are precision ground and polished. Each box contains 72 slides.

Size: 46 x 27 x 1.2mm (1 7/8 x 1 1/16 x 1/16")

Thin sections made from rocks, minerals, cement/concrete, construction and building materials, and bone are mounted with epoxy, Crystalbond™ or Mounting Media onto a 46 x 27 mm glass slide for routine petrography, reflected and transmitted light microscopy, EPMA, SEM/EDS, automated mineralogy, cathodoluminescence (CL) and EBSD analysis. Coverslips reduce light-scattering effects due to remnant pits and scratches formed in polishing steps. Uncovered thin sections can be coated with oil, Histomount™ or clear nail polish prior to analysis.

260600	Petrographic Microscope Slides, 46 x 27mm. 72 Slides.....	each
