8.2. Exposure controls				
Appropriate engineering controls : Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) be recommended exposure limits.				
Hand protection	: Neoprene rubber gloves.	: Neoprene rubber gloves.		
Eye protection	: Chemical goggles or safety glasses.	: Chemical goggles or safety glasses.		
Skin and body protection	: Wear suitable protective clothing.	: Wear suitable protective clothing.		
Respiratory protection : In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and th safe working limits of the selected respirator.				
invironmental exposure controls : Maintain levels below Community environmental protection thresholds.
